

EMILE AZZAM

Address: 117 Greenfield Rd. Brantford
Cell: (519) 761-9106
Email: azzame@uoguelph.ca
Personal Website: www.metallicgoat.ca
GitHub: www.github.com/MetallicGoat

SKILLS

- Git, Java, PHP, JavaScript, TypeScript, C, C++, React, Next.js, HTML, CSS, Tailwind, Bootstrap, SQL, MySQL, Wordpress, Docker, Bash, Powershell, Terraform, Terragrunt, Azure, Git, Agentic programming, Octopus Deploy
- Proficient with Linux, specifically RHEL and Debian based systems
- Excellent cooperation and communication abilities developed through working with other developers on both large (and small) open, and closed source projects

EDUCATION

Bachelor of Engineering, Engineering Systems & Computing (Co-op) 2023 – Present
University of Guelph, Guelph, ON

Ontario Secondary School Diploma 2019 – 2023
St. John's College, Brantford, ON

WORK EXPERIENCE

DevOps Engineer Co-op Jan. – Aug. 2026
Camis Inc, Guelph, ON

- Maintained and extended Azure infrastructure with Terraform to support new feature rollouts
- Rebuilt legacy internal tools and dashboards used by engineering teams and call centers
- Built an alerting system to detect and notify respective teams of app downtime and slow response times
- Developed and maintained scheduled task jobs for reporting, automated restarts, and scaling
- Contributed to CI/CD deployment pipelines - scripts, GitHub Actions, Octopus Deploy

IT Manager and Software Developer Co-op Apr. – Sept. 2025
Perpetual Motion Sports, Guelph, ON

- Migrated legacy PHP/JS schedule and standings system to React/TypeScript, eliminating manual iFrame URL updates across all sports web pages, improving both administrative and customer UX
- Built an email template system with dynamic placeholders, automating generation of context-specific emails (score disputes, waiver reminders, payment requests, etc) for 500+ teams per season
- Developed a waiver-tracking tool that cross-references registered players against a MySQL database to flag non-compliant teams and trigger automated follow-up emails
- Detailed descriptions and images of features implemented can be found on my website [here](#)

Freelance/Volunteer Software Developer 2020 – Present
Home, Brantford, ON

- Work on a variety of open and closed source projects; both paid, and voluntary work
- Given a set of requirements, develop server side plugins/software to perform the required tasks as efficiently and reliably as possible
- Perform tests to ensure every customer gets a final product that exceed their expectations

Lifeguard

2021 – 2024

Brant Conservation Area, Brantford, ON

- Perform rescues and first aid in the event of injuries, and/or emergencies, following proper procedures in accordance with NLS
- Performed hourly pool tests to ensure chlorine and pH levels are safe
- Adapted to fast-paced environment and formed strong relationships with all staff members

Dishwasher

2020 – 2021

Sociable Kitchen & Tavern, Brantford, ON

- Part time dishwasher at Sociable Kitchen
- In addition to washing dishes, would also help portion food, and assist in closing

ENGINEERING PROJECTS

MBedwars, (Server Plugin)

2020 – Present

Personal Hobby Project

- Co-Maintain a plugin-based back-end that can reliably manage hundreds of concurrent players, and supports proxies to scale linearly for large networks (wiki.mbedwars.com)
- Self maintain a large set of open source addons for the core project available on GitHub
- Write user facing, as well as developer API documentation for all aspects of the software
- Work on implementing user feature requests, and resolving bug reports
- Provide user support through online channels

Object Oriented Programming Project, (Traveling Salesman)

Jan. – Apr. 2024

University of Guelph, Guelph, ON

- Team implementation of Traveling Salesman in Java 17 using the LibGDX framework based on a of hyper specific set of guidelines
- Achieved a grade of exactly 100% on every aspect of the project
- Both the projects code base and write-up has since been [open sourced here](#)

TRAINING AND CERTIFICATIONS

NLS (National Lifeguard)

Re-certified Dec. 2023

First Aid & CPR-C

Re-certified May 2024

RPAS Pilot License

June 2020

PERSONAL INTERESTS

Dogs, swimming, programming, open-source, biking, camping, canoeing
